RECYCLABLE FOR YEARS

SUPER GREEN  
ZeoFILTER  
EFGRO3

## POWERED BY THE SUN

Made from 100% natural, toxin-absorbing zeolite—a molecule so powerful it's used in nuclear cleanup! These super-effective filters can be recharged over-and-over.

### Refresh your Zeo Filter?

Simply hang in direct sunlight for a few hours to release the moisture and odor trapped inside.

### Replace your Zeo Filter?

Just snip the grommet off your filter and toss it into your compost pile.

VOLCANIC ZEOLITE CRYSTALS TRAP MOISTURE

NATURE'S SUPER-EFFECTIVE ODOR MAGNET

RECHARGEABLE IN THE SUN

# 1,500 TIMES MORE ABSORBENT THAN ACTIVATED CHARCOAL

### PERFECT FOR:

- Green Cyclor by Ecotonix
- Litter box
- Fruit bowl
- Refrigerator & Freezer
- Sports bags
- Stinky shoes
- Anywhere odor is a problem

### WHAT IS ZEOLITE?

Zeolite is a volcanic crystal with a highly-absorbent structure. It traps moisture and odor molecules in its pores and releases them when exposed to the sun. Simple and effective in your home, zeolite has a much bigger job. This amazing volcanic crystal has proven extremely effective at cleaning up radioactive particles and soils contaminated with toxic heavy metals.
